

Compliance and Safety

Keeping Drivers and Carriers Safe and Compliant

Safety is our number one priority. For your drivers and your business.

Safety and compliance should never be an afterthought. TransForce Group and its industry-leading brands work to ensure the most current safety and compliance protocols are available and implemented, so you can rest easy knowing that the highest standards are always being met.

TransForce Group develops, hosts, and distributes industry-leading safety and compliance services and solutions to help companies like yours stay ahead of the curve.

TransForce Group's industry-leading SafetyServe brand has exclusive rights to deliver the National Safety Council's official Defensive Driving Course.

Data shows that completed courses reduce auto insurance premiums, dismiss traffic tickets, and reduce points for drivers.

Proprietary SaaS solution deliver responsive online, mobile-accessible training and (driver and vehicle) compliance services.

DQ file maintenance, mock audits and other TransForce Group solutions simplify your compliance burden and prevent costly penalties.

HEAR FROM OUR CUSTOMERS

“SafetyServe is really easy to use. It's easy for drivers, and it's easy for us on the administrative end.”

– HR Coordinator,
Superheat FGH Technologies

“We have had great results using SafetyServe's program. We have several customers that say they've had half a dozen near misses and that if they hadn't completed SafetyServe's program, they would have responded incorrectly and an accident may have occurred.”

– VP, Axa XL

Compliance and Safety Solutions In Action

TransForce Group's compliance and safety programs provide you with the compliance services you require, and a platform for your drivers to improve their skills and safety awareness, helping them reduce points, avoid traffic violations and, as a result, minimize risk associated with driver accidents and compliance violations.

Safety Steps:

- 1 Motor carriers invest in NSC-Certified safety and professional truck driving courses.

- 2 TransForce Group customizes virtual courses for on-site or mobile-enabled employee training and implements program for motor carrier.

- 3 Drivers complete best-in-class, customized training courses, demonstrating mastery through a final exam. TransForce, Inc. representatives.

Compliance Steps:

- 1 TransForce Group initiates and completes on-site motor carrier compliance readiness report, assessing motor carrier needs.

- 2 TransForce Group performs DOT mock audit, and customizes actionable steps for best-in-class compliance standards.

- 3 TransForce Group presents and consults on implementation of customized, appropriate measures in-line with or above Federal Motor Carrier Safety Regulations, up-to-and-including compliance software and services to manage ongoing compliance requirements.

Our Capabilities

Customized Safety Courses and More

SafetyServe's (a TransForce Group Brand) proprietary training programs provide valuable, tech-enabled solutions to improve responsiveness and increase accessibility for drivers and customers across the country. Leveraging a highly scalable platform, we provide training and safety compliance courses to thousands of drivers per month—all of which feature the most comprehensive, up-to-date information your drivers need to know.

TransForce Consulting Services

TransForce Consulting Services is dedicated to ensuring your organization is prepared for the day DOT shows up at your door. Our DOT Audit Readiness service provides you with a realistic mock audit experience that uses DOT's own audit process and software to paint a very realistic picture of the violations, safety rating and fines the DOT would impose on your business.

We also develop customized internal audit programs, outsourced compliance services, and executive-level compliance training, so your business is ready for whatever comes its way.
