Extensive access to transitioning military veterans who are highly sought-after by motor carriers and private fleets

Motor carriers and private fleets get unique "first look" access to graduating military veterans and highly qualified civilian drivers

Build your own driver pool. Customizable corporate driver development and mentor programs.

8 nationally recognized training campuses throughout the U.S. and growing

### HEAR FROM OUR STUDENTS

**"I had 20 job offers before graduation with The CDL Schools. Their curriculum covers everything, from maps to regulations to backing maneuvers. A lot of programs only offer the basics but The CDL Schools take their time to make sure that each student comes out ready to drive knowing how to stay safe."**

– DRIVER, Schneider Logistics

**"Troops to Transportation [The CDL Schools] has very strong job placement. Everything about their process is pretty seamless."**

– DRIVER, J.B. Hunt

## Education and Training Solutions in Action

TransForce Group's education and training solutions build and create the drivers of the future.

**1** TransForce Group nationally markets to and recruits military veterans and civilians to become qualified CDL drivers. TransForce Group also partners with carriers to transition non-driving employees into qualified drivers.

**2** Military Veterans, civilians and corporate-sponsored employees enroll and receive online and vehicle training from licensed and certified instructors. Experienced drivers pursue additional licenses and qualifications.

**3** Premier Carrier Partners interact with students to help with finding the best 'fit' for carriers and drivers, while current employers interact with student-employees to guide their career development.

**4** Premier Carrier Partners make multiple job offers to upcoming graduates, while corporate sponsored students prepare for their new career.

**5** Highly qualified drivers begin meaningful new careers with Premier Carrier Partners and current employers.

---

## Our Capabilities

### CDL Training Schools

This nationally recognized trucking school offers a trademarked C.D.O.R (Comprehension, Demonstration, Observation, and Repetition) approach to training the truck drivers of today and tomorrow.

### Troops into Transportation

Part of The CDL Schools, Troops into Transportation (T2T) provides training and certification programs to help veterans and service members secure employment in the transportation industry.

### Driver Development and Ongoing Education

We offer 5 custom driver training/certification programs that help drivers at any stage of their career excel in the industry: Master Tractor Trailer, Professional Driver, Advanced Driver, BP Intermediate, and Certification Enhancement Modules.

### Professional Truck Driving Certification

The award-winning SafetyServe Professional Truck Driver Online Program (DDC-PTD) uses state-of-the-art animation and graphics to offer an engaging, interactive, online learning environment where students analyze real driving situations, and learn advanced collision prevention techniques.

## Connect With Us

We want to hear how we can help find or transition your employees to drivers or partner with you to educate and create the best new driver fleet for your business. Get in touch with a member of the TransForce Group today.
