## Keeping Drivers and Carriers Safe and Compliant.

Safety is our number one priority. For your drivers and your business. Safety and compliance should never be an afterthought. TransForce Group and its industry-leading brands work to ensure the most current safety and compliance protocols are available and implemented, so you can rest easy knowing that the highest standards are always being met.

**TransForce Group develops, hosts, and distributes industry-leading safety and compliance services and solutions to help companies like yours stay ahead of the curve.**

### **NSC-Approved**

TransForce Group's industry-leading SafetyServe brand has exclusive rights to deliver the National Safety Council's official Defensive Driving Course and more.

### **SaaS Solution**

Proprietary SaaS solution, TACC, delivers responsive online, mobile accessible training and (driver and vehicle) compliance services.

### **Compliance Consulting**

DQ file maintenance, mock audits and other TransForce Group solutions simplify your compliance burden and prevent costly penalties.

## Hear from our Happy Customers

**“SafetyServe is really easy to use. It's easy for drivers, and it's easy for us on the administrative end.”**

– Superheat FGH Technologies

**“This platform gives me peace of mind. It's easy to use, detailed and keeps us confident and compliant for any DOT audit.”**

– Swingline Transport

# Compliance and Safety Solutions In Action

TransForce Group's compliance and safety programs provide you with the compliance services you require, and a platform for your drivers to improve their skills and safety awareness, helping them reduce points, avoid traffic violations and, as a result, minimize risk associated with driver accidents and compliance violations.

## Safety Training Steps:

**1.** Motor carriers invest in NSC-Certified safety and professional truck driving courses.

**2.** TransForce Group customizes virtual courses for on-site or mobile-enabled employee training and implements program for motor carrier.

**3.** Drivers complete best-in-class, customized training courses, demonstrating mastery through a final exam.

## Compliance Steps:

**1.** TransForce Group initiates and completes on-site motor carrier compliance readiness report, assessing motor carrier needs.

**2.** TransForce Group performs DOT mock audit, and customizes actionable steps for best-in-class compliance standards.

**3.** TransForce Group presents and consults on implementation of customized, appropriate measures in-line with or above Federal Motor Carrier Safety Regulations, up-to-and-including compliance software and services to manage ongoing compliance requirements.

## Our Capabilities

### Customized Safety Courses and More

SafetyServe's proprietary training programs provide valuable, tech-enabled solutions to improve responsiveness and increase accessibility for drivers and customers across the country. Leveraging a highly scalable platform, we provide training and safety compliance courses to thousands of drivers per month—all of which feature the most comprehensive, up-to-date information your drivers need to know.

### TACC: TransForce Automated Compliance Center

TACC is a one-stop DOT audit solution that will help your business become and stay DOT compliant. With easy-to-use, cloud-based dashboard control and compliance monitoring, TACC relieves the worry about surprise audits and gives you more confidence to run your business.

### TransForce Consulting Services

TransForce Consulting Services is dedicated to ensuring your organization is prepared for the day DOT shows up at your door. Our DOT Audit Readiness service provides you with a realistic mock audit experience that uses DOT's own audit process and software to paint a very realistic picture of the violations, safety rating and fines the DOT would impose on your business.

We also develop customized internal audit programs, outsourced compliance services, and executive-level compliance training, so your business is ready for whatever comes its way.

### Connect With Us

Your safety and compliance needs are our number one priority. Get in touch with a member of TransForce Group team, so we can learn more about your business and how we can help you meet the highest compliance and safety.
